

Default underline (text color): gjpqy

Underline, named color red: gjpqy

Underline, hex color #00ff00: gjpqy

Underline, rgb() color blue: gjpqy

~~Line-through, named color orange: gjpqy~~

Overline, named color purple: gjpqy

Underline + overline, magenta: gjpqy

Decoration color red, independent of text color:
blue text

Longhand text-decoration-color red: gjpqy

Longhand red on blue text: gjpqy

Longhand red beats the shorthand's blue: gjpqy

Later shorthand resets the color to black: gjpqy

currentcolor, so green like the text: gjpqy

Invalid text-decoration value (bogus) must not
remove other properties (teal text, no
decoration)
