1. This is a very long footnote that will need wrapping. Someone once said about

footnotes that they are hard to implement! We need another few lines to go over an entire page and a half to demonstrate what happens with multi-page

footnotes.
2. start second footnote eleven twelve thirteen fourteen fifteen sixteen seventeen eighteen nineteen twenty thirty fourty fifty

sixty seventy eighty ninety hundred footnote note foot lorem ipsum etc start again one two three four five six seven eight nine ten end.

content. This is to make sure text after multi-page footnotes works. Some more content. Even more.
